- ❑ Evaluate the feasibility of further reducing VOC emissions
- ❑ Evaluate the use of LVP-VOCs in consumer products

  - Consumer Products Regulation (title 17, CCR, section 94513)
  - Aerosol Coating Products Regulation (title 17, CCR, section 94524(c))

# Who must complete the Survey?

## ❑ Survey Applicability Determination:

<http://www.arb.ca.gov/consprod/regact/2013surv/2013pre/survey.htm>

- Will help to determine if you are required to submit survey data

# Data Confidentiality

- ❑ ARB understands the data confidentiality concerns raised by stakeholders
- ❑ ARB staff is working with their information technology department to ensure survey data will be collected and stored securely
- ❑ ARB staff believes the allowed grouping of products by multiple types of ingredients will also improve data security
- ❑ Additional opportunities to denote data in the CPRT as confidential will be added to the final version

# Data Requirements

- ❑ Reporting sales and formulation data for three consecutive years
  - 2013 sales and detailed formulation of all products
  - 2014 and 2015 sales data; formulation only if product VOC content by weight change is greater than 0.5 percent
  - Aerosol Coating and Aerosol Adhesive Products
    - 2013 sales data only
    - In 2018, a 2017 Survey will be completed for aerosol coatings and adhesives

# Data Requirements (Cont.)

- ❑ Reporting ALL products per their stock keeping unit (SKU)
- ❑ Product formulation to be reported once if:
  - Products within the same category differ only by size
  - VOC ingredients variation is less than 0.5 percent by weight (includes fragrances) or non-VOC ingredients that vary less than 1.0 weight percent
    - Products that differ by color, botanical extract, type of resins or surfactants may be grouped
    - Selected inorganics
    - Examples are included in the survey instructions
- ❑ One representative label to be submitted per group

# Data Requirements (Cont.)

- ❑ Reporting of each ingredient present in an amount nearest to 0.1 percent by weight
  - Most current formula to be reported if multiple formulas used during the calendar year 2013
  - Ingredients from the most representative vendor if different vendors used
- ❑ Ingredients reporting requirements are specific to ingredient type (chemicals versus hydrocarbon solvents)
- ❑ Products containing low or no VOCs must be also reported
